Alumni Feedback

Dear Alumni / Alumna,

Academic Council of our Institute formed committees with which external peer team has to be involved which include experts from field , industries and academics. It is our responsibility to involve our stakeholders too in the process of revision of syllabus. You are requested to take your precious time to refer this summary and give your valuable feedback so that we can incorporate the suggestions in the next revision as it is a continuous process.

Following are the major changes in revision of syllabus which have been incorporated by taking into consideration recent advancements in the Engineering field & Technology concerned with the stream and society at large.

Further you can refer our Syllabus on our shivaji university website.

The syllabus is a progressive and includes research component and open electives for interdisciplinary approach. Application of new software's in subjects like Graphics & Architectural Design keeps the student at par with emerging trends in the field of Architecture. Inclusion of new courses like scope of architecture, Computer Technology in Architecture, caters to the advancements in industry. These changes help to increase the entrepreneurship and employability of students.

Self sufficient syllabus

Site visits necessary from first year

More Hands on workshop like model making, pop carving etc. should be included in first year B Arch

Latest digital technology

Improvement and more focus on practical and field work.

Need to add new technological improved material and construction methods in syllabus ..
Design subject could be integrated with other subjects and its applications should be seen.

Learning of new software

Your opinion/suggestions for improvement in contents of the syllabus. will you Suggest any value added courses .

24 responses

Project management and it's architecture context

other courses like detail estimation and costing, practice knowledge, vastushatra course! other software courses and many more should be taken.

Add software oriented elective before pp

Practical training should be insisted in the syllabus.

Provide In details information

I would like to suggest the improvement in field work for actually gain the knowledge in the construction industry. Services or Infrastructure Technology in Architecture is very important in future disasters.

Its good actually so no suggestions

No

Architectural ethical practice
Interior architecture
Salutigenic architecture

Yes

Short term courses for sketchinG techniques

Bamboo construction techniques course

Needs to be field oriented

Design with climate should be added in the syllabus

Practical knowledge n modelmaking should be given more

We should add content in relevance with out bound learning. More focus should be on experiential learning

In the Syllabus need to addition of advance construction methods and technology

| Sr. No. | Feed back | Received from | Action taken |
|-------------------------------------|---|---------------|--|
| Alumni Action taken Response | | | |
| 1 | The syllabus should have more of practical training experience with the incorporation of studying new materials, their applications, new software applications. | Alumni | Visits to forums and exhibitions has been made mandatory and was included in the teaching plan. Time to time there are presentations on updated technologies in the institute. |
| 2 | More emphasis should be on Practical & empirical learnings | Alumni | Outbound & Experiential learnings has taken under serious consideration. Comprises with value addition electives in Academic syllabus. |
| 3 | Students Foundation need to be formed in college to support needy students for their fees. | Alumni | Through Alumni foundation is started .Alumni is looking care of all this activities and it is action. |
