**Criteria 1: Curricular Aspects:**

**1.1 Curricular Planning and Implementation**

**1.1.1 The institution ensures effective curriculum delivery through a well planned and documented process (in 200 words).**

**RESPONSE:**

Appasaheb Birnale College of Architecture, established in 1993 and affiliated with Shivaji University, Kolhapur, implements a well-structured process to ensure effective curriculum delivery that meets both academic standards and students' developmental needs. The Principal and the Internal Quality Assurance Committee (IQAC) oversee the curriculum to ensure all academic, co-curricular, and extra-curricular activities are executed smoothly and with clear benefits for students.

At the start of each academic year, the Principal and IQAC meet with faculty to set objectives, establish the academic calendar, and assign teaching responsibilities based on faculty expertise. Subject Coordinators, class teachers, and subject instructors collaborate closely to prevent overlaps and ensure that each course's syllabus, lecture plans, and learning objectives are fully aligned with the curriculum framework established by the university.

The college emphasizes a student-centered approach to teaching and learning, focusing on creating an engaging and inclusive academic environment. Continuous assessments, regular assignments, and periodic evaluations ensure that the curriculum delivery is effective and achieves its intended outcomes. Information regarding academic schedules and events is disseminated through notice boards, social media, and the college website, ensuring transparency and timely communication. This systematic approach enables students to excel academically while fostering their overall growth.
