ACE LIBRARY MANAGEMENT SYSTEM

Library Management Software is more than just another latest technology solution - it is a system that will improve the way school/colleges libraries are managed. It is a Multi User system, operational on LAN environment. The implementation of our flagship product Library Management System will help the institute to manage day to day activities more efficiently, promptly and in less time which will lead to saving in manpower, time and help transform your library into an ideal library in the area.

The software circumferences

around all operations of Library in modules wise as described below in a **central database** and integrated approach. Management and administrators can retrieve real- time information and view all the information online

- With this system **data is entered only once** and instantly available in all users and departments thus it reduces duplicate data entry and data redundancy.
- The administration and day to day work can be carried out more smoothly **efficiently and fast** with **minimum numbers** of administrative staff.
- **Single window** to view all information of a library, their activities, purchase, issue and receipts, registers, etc.
- The software helps the institute to have better **return on investment** in terms of saving of Time, Money & People. This Software will help the management use optimum level of resources.

HIGHLIGHTS OF THE SYSTEM:

- ✓ Completely secure system with **Password protected** user access, department and role wise rights
- ✓ Utility for Backup and Restore database
- ✓ User friendly screen designs, toolbar, short cut keys for fast data entry makes the system unique and easy to operate for any person
- ✓ Export facility of reports
