SWAYAM / NPTEL COURSE BROCHURE , SYLLABUS

STRATEGIES FOR SUSTAINABLE DESIGN

PROF. SHIVA JI
Department of Design and Department of Climate Change
IIT Hyderabad

INTENDED AUDIENCE : Architecture, Product Design, Interiors, Construction, and Manufacturing.

INDUSTRIES APPLICABLE TO : Construction and Manufacturing

COURSE OUTLINE :
The course discusses sustainability principles and concepts from across various domains. Elaborates on sustainability definitions, aspects, dynamic nature of it, and its application in everyday life. Further, it discusses global efforts from UNFCCC, IPCC, and other agencies for developing context-based solutions and climate change mitigation efforts. Involves field visits, real-life case examples, and assignments. Includes study on building technologies to improve efficiency and response to surroundings. Focusses on basic scientific principles underlying the environmental performance of the built environment and designing for efficacy on EIA/LCA. It elaborates about NBC of India, CNBC, and SA Methods also such as GRIHA, LeNS tools, etc. Overall, it touches on UN SDG and systemic analysis for an easy understanding of assessment for students. The course provides a state of the art study material using the latest research papers, journals, books, and reports, etc.

ABOUT INSTRUCTOR :
Prof. Shiva Ji is a practicing Architect, Industrial Designer and Assistant Professor in Department of Design and Department of Climate Change at IIT Hyderabad. He has B.Arch, M.Des, MBA and PhD in sustainability assessment methods in built environments from IIT Guwahati. He has over 13 years of cumulative experience in industry and academics. He has accomplished several projects in field and has over 39 designs launched in the market. His research areas include design for sustainability, sustainability assessment, virtual & augmented reality, architectural heritage reconstruction using technology. He is involved with many research projects using state of the art technology in domains of architecture and design. He is a member with several national and international organizations.

COURSE PLAN :

Week 1: Definitions and Perspectives on Sustainability in Industrial Design and Built Environments

Week 2: ESE Aspects of Sustainability and Climate Change Mitigation

Week 3: Current National and International Scenario of SD and Dependence on Energy

Week 4: Impact of Pollutions and Design Processes with Alternative Solutions for Health of Ecosystem

Week 5: Environmental Impact Assessment and Lifecycle Analysis

Week 6: Policy, Growth, Development and 3R's for Consumption

Week 7: NBC, ECBC, and SA Methods such as GRIHA

Week 8: UN SDG and System Design tools such as SPSS, MSDS by LeNS

Week 9: Vernacular and Responsive Design using Net-Zero Energy, Lighting, Ventilation, Views, etc., for Human Comfort

Week 10: Design for Sustainability and Nature as Inspiration

Week 11: International Conventions, Laws and Emerging Technologies for SD

Week 12: SD Case Studies and Summary

INTRODUCTION TO HISTORY OF ARCHITECTURE IN INDIA

PROF.PUSHKAR SOHONI
Department of Architecture and Planning
IISER Pune

PRE-REQUISITES : Any student who is interested in architecture or cultural history.

COURSE OUTLINE :

The history of architecture in India is a material narrative of aspirations, polities, and societies in the region. From the Indus Valley Civilization to the modernism of B.V. Doshi, architecture has defined periods, peoples, and regions across India. This course is a brief introduction to a history of five thousand years of architecture in India, and provides a broad perspective on one aspect of material expression.

ABOUT INSTRUCTOR :

Prof. Pushkar Sohoni trained as a professional architect from the University of Pune, after which he received an MS in Historic Preservation from the University of Pennsylvania. His doctoral research was on late medieval and early modern architecture, and he received his PhD from the University of Pennsylvania, followed by a post-doctoral position at the University of British Columbia. He has authored many articles and books on architectural history and other aspects of material culture.

COURSE PLAN :

Week 1: i. Introduction to History of Architecture
ii. Indus Valley Civilisation,
iii. Early Historic Period - Wooden and Cave Architecture

Week 2: i. Beginnings of the Temple,
ii. Medieval Temples,
iii. Islamic Architecture

Week 3: i. Sultanate Architecture,
ii. Mughals and Rajputs,
iii. Princely States

Week 4: i. Neo-Classical, Indo - Saracenic, Revivial Gothic,
ii. Art Deco, Modern,
iii. International and Contemporary

STRUCTURE, FORM AND ARCHITECTURE: THE SYNERGY

PROF. SHUBHAJIT SADHUKHAN
Department of Architecture and Planning
IIT Roorkee

INTENDED AUDIENCE : This course would be useful for the students pursuing B.Arch, M.Arch and B.Tech/BE Civil Engineering

COURSE OUTLINE :
Structure is an integral part of designing Architecture since the primitive age. Starting from the Stonehenge to the creation of the world's tallest tower in recent times, structure and its designed form presented an excellent Architecture to experience, to appreciate and also fulfill the functions for which they are created. Therefore, the present course has an extreme importance in creating an interest among the students, architects and engineers as well to learn the relationship between Structure, Form and Architecture to make a synergy between them and make the space creation structurally strong, stable, functionally optimized and aesthetically pleasant Architecture. The course will highlight the basics of structural forms, its pros and cons to make a decision to select the appropriate form for the Architectural Design. Suitable case studies along with a few demonstrations with study model experiments can help students to clear the doubts and help them in designing the assignments.

ABOUT INSTRUCTOR :
Prof. Shubhajit Sadhukhan is presently an Assistant Professor in the Department of Architecture Planning at Indian Institute of Technology Roorkee. Earlier he served National Institute of Technology Patna for four and half years as an Assistant Professor in the Department of Architecture. Dr. Sadhukhan received his PhD from Indian Institute of Technology Kharagpur in 2017. In 2010, he obtained his Master of Technology (M. Tech) Degree in Infrastructure Design and Management from Indian Institute of Technology Kharagpur and also awarded with the 'Institute Silver Medal'. He completed his Bachelor in Architecture (B. Arch) with Honours in 2008 from Jadavpur University, Kolkata.

He has exposure in both the fields of Architecture and Transport Infrastructure Planning. He has publications in several international journals of high repute and presented his research work at many international conferences. His current research includes urban mobility planning, sustainable transportation, infrastructure planning and architectural structures.

ARCHITECTURAL CONSERVATION AND HISTORIC PRESERVATION

PROF.SANGHAMITRA BASU
Department of Architecture & Regional Planning
IIT Kharagpur

PRE-REQUISITES : Core

INTENDED AUDIENCE : Architect, Urban Planner, Conservation Architect, Urban Designer, Civil Engineer, Archaeologist,Artist, Musicologist, Historian, Tourism Managers, Administrators.

INDUSTRIES SUPPORT: Archaeological Survey, State Archaeology Departments, Tourism Departments, Public Works Departments, Development Authorities, Planning Authorities, Municipal Organisations, Local Planning Bodies, Indian National Trust for Art and Cultural Heritage (INTACH) and NGOs.

COURSE OUTLINE :

This course is designed to address historic preservation and conservation as an approach that establishes a link between past, present and future. Idea is to familiarize the course participants with issues and challenges of heritage areas, about opportunities of heritage structures, sites, precincts and areas, of the need of integrating development with heritage preservation. Evolution of conservation movement, changing concepts and role and policies of various agencies involved in the field of conservation are discussed. Along with definitions and concepts of conservation and heritage, and explanation of various types of heritage, participants are introduced to the international framework of conservation and world heritage scenario. The importance of establishing significance of heritage structures is highlighted through examples. Guidelines for preservation, conservation and restoration of heritage structures, precincts and sites and the process of impact assessment are explained through various case studies. The process of evolving design guidelines for new buildings in historic settings is elaborated with the help of appropriate examples. Along with exposure to management and presentation of heritage buildings and sites, the importance of community participation in the field of heritage conservation is highlighted. An overview of the current status of conservation and preservation in India along with current policies and programmes is also discussed.

ABOUT INSTRUCTOR :

Prof. Sanghamitra Basu, PhD , MA (Conservation Studies , IAAS , York, UK), Post Graduate (Urban Planning , School of Planning and Architecture , New Delhi), B Arch (Hons.) , a DANIDA and Charles Wallace Fellow , is currently a Professor in the Department of Architecture & Regional Planning, Indian Institute of Technology (IIT) Kharagpur, India . She has 33 years of experience in teaching at undergraduate and post graduate levels. She has been active in research and consultancy projects in the field of historic preservation and heritage planning, sustainable tourism, heritage management, participatory planning, housing and neighbourhood planning, GIS application and architectural pedagogy. She has several publications in journals, chapters in books, monograph and papers presented in international and national conferences. She has guided Ph D works in postmodern and traditional architecture, on social cohesion and gated communities. At present she has several scholars working under her supervision in the fields of cultural heritage, tourism planning, neighbourhood planning, improving quality of life of senior citizens etc. She is a member of editorial / review boards of several peer reviewed journals. She served as a member of the National Monuments Authority, Ministry of Culture, Government of India, during 2011-2014. She is an active member of ICOMOS India (as a member and coordinator of Scientific Committees, member of National Advisory Committee - ICOMOS General Assembly & Scientific Symposium held in 2017 in India) , a member of technical committees for restoration of heritage structures , on expert panel of INTACH and ASI , and a visiting expert to several academic institutions .

SUSTAINABLE ARCHITECTURE

PROF. AVLOKITA AGRAWAL
Department of Architecture and Planning
IIT Roorkee

PRE-REQUISITES : Climatology, Building materials

INTENDED AUDIENCE : Architecture and Planning

INDUSTRIES APPLICABLE TO : IGBC, GRIHA, BEE, BIS, Green Building Consultants, Practicing Architecture Firms

COURSE OUTLINE :
The pace at which resource consumption is increasing in every field, it has become imperative to consider sustainability in all aspects. Buildings are a major consumer of resources through their life time. This has been realized by the nations world over and hence stricter norms and laws for construction are being laid. Buildings are supposed to be more and more efficient and optimal in consuming resources. Such buildings are called sustainable buildings and all buildings will be required to be sustainable. Hence this course becomes important in understanding-

1. The basic parameters of sustainable buildings.
2. Design, Practices and technology which would lead to creation of such buildings.
3. Science behind performance of efficient buildings.

ABOUT INSTRUCTOR :
Prof. Avlokita Agrawal earned Bachelor of Architecture degree from IIT Roorkee in 2003 and PhD from IIT Roorkee in 2010. Right from college, the subject which most interested her were climatology and passive designing which were taught to them by one of the most accomplished teachers of those times, Dr. M R Sharma and Dr. I C Sharma, both from CBRI. After B Arch, Prof pursued PhD where studied Impact of Vaastushastra on thermal comfort in traditional Havelis of Rajasthan. While pursuing PhD and post completion of PhD, Prof worked for companies like Asahi India Glass (where she headed their Green Design Division) and Honeywell International (where Prof worked in Corporate Affairs division with a focus on building energy efficiency vertical). In corporate jobs, Prof. Avlokita Agrawal was mainly working toward various aspects of building energy efficiency. After joining back academics, Prof have mainly taught subjects like Sustainable Built Environment. Prof. Avlokita Agrawal also manage the IGBC student chapter at IIT Roorkee.

COURSE PLAN :

Week 1: Fundamentals of sustainability, definitions, historical development of the concept of sustainability and sustainable development, Sustainable architecture as a subset of sustainable development.

Week 2: Impacts of built environment on natural environment, Sustainable Development, Agenda 21, UN Goals,

Week 3: Characteristics of sustainable architecture, fundamentals of passive designing and climatology, thermal comfort, visual comfort, acoustic comfort

Week 4: Sustainable buildings, parameters of sustainable buildings, Green buildings, Indicators of green buildings, Terminologies related to sustainable buildings- carbon footprint, life cycle analysis,

Week 5: Site development- site selection, UHI, Public Transport, vegetation, development footprint, storm water runoff, SRI

Week 6: Water – estimating the use, reductions in consumption, recycling, reuse, landscape requirement, strategies and technology for water conservation

Week 7: IEQ- day lighting, views, CFC free, ventilation, comfort, VOC free,

Week 8: Materials and Resources- segregation, recycling, reduction in waste, reuse of materials and building, renewability

Week 9: Energy- energy efficiency, energy conservation, ECBC, renewable energy, M&V

Week 10: Codes and compliances – ECBC, NBC, other rating systems prevalent in india

Week 11: Vernacular architecture and sustainability, culture and sustainability,

Week 12: Software use for Energy compliance- Design Builder, Climate Consultant etc

INTRODUCTION TO URBAN PLANNING

PROF. HARSHIT SOSAN LAKRA
Department of Architecture & Planning
IIT Roorkee

INDUSTRIES APPLICABLE TO : Institute of Town Planning , All Planning Organizations and consultants, Government Planning Department Like Ministry of Housing and Urban Affairs, Town and Country Planning Departments

INTENDED AUDIENCE : Any interested Learner

COURSE OUTLINE :

The course is meant primarily for Under graduate students to familiarize with the urban planning issues, objectives, framework, process, techniques and components. The subject also exposes the students about various planning legislation and norms. This subject is comprehensive subject which makes students learn about urban agendas and tools in very succinct manner and this subject is particularly useful for the students to prepare for the GATE Exam.

ABOUT INSTRUCTOR :

Prof. Harshit Sosan Lakra is an Assistant Professor in the Department of Architecture and Planning. She is trained as an Architect and has done Environmental Planning from Centre for Environmental Planning and Technology (CEPT) University Ahmedabad, Gujarat. She has done her Second Master in City and Regional Planning from Cornell University, New York,USA and Her PhD from IIT Roorkee. She has been engaged in teaching the course Environmental Impact Assessment since 2015 at IIT Roorkee and Before at BIT Mesra. She has conducted environmental focused studios for the planning students in Industrial area Roorkee, Piran Kaliyar Sharif (Heritage Site) Haridraw, Valley of Flowers, Uttarakhand and North Lakhimpur in Assam.

COURSE PLAN :

1. Introduction : Need and Objective of Planning ; Evolution ofPlanning; Characteristics of settlements; Types of Plan and planning process

2. Problems and Issues of Urban areas : Land Use;Communication System, Slums, Sporadic growth and Conurbation

3. Planning Framework and process for various development plan: Planning process, components and techniques; Concept of Master Plan; its elements, preparation and implementation; Perspective Plan, Perspective plan., Zonal plan ;Participatory and inclusive planning

4. Planning Legislation : legislation as tools of plan implementation and development ; Review of Planning legislation in India , complaint and redress mechanism

CONTEMPORARY ARCHITECTURE AND DESIGN

PROF. SAPTARSHI KOLAY
Department of Architecture and Planning
IIT Roorkee

INTENDED AUDIENCE : Students and professional from the disciple of Architecture or equivalent domain.

INDUSTRIES SUPPORT : Architecture Companies and Design Studios

COURSE OUTLINE :

The course will impart knowledge on the historical backdrop and trends of contemporary architecture. Discussion will happen on the major phases of contemporary architecture - modernism and post-modernism. The salient features of both the phases of contemporary architecture will be detailed out with reference of relevant examples. These phases of architectural school of thoughts will also be extrapolated into the domain of visual design and fine arts, for a holistic understanding. The course will help the students in genesis of critical thinking on architectural appreciation and formulating design vocabulary.

ABOUT INSTRUCTOR :

Prof. Saptarshi Kolay is presently an Assistant Professor at Architecture and Planning department of Indian Institute of Technology Roorkee. After completing his under graduation in Architecture form Jadavpur University, he went on to explore User Centric design at Design Programme of Indian Institute of Technology Kanpur. Along with teaching he is pursuing his PhD from the Department of Architecture and Planning, IIT-Roorkee. He was selected in student-exchange programme for Aalto University, Finland and Escola De Arte and Deisnu, Spain. He has received Rafiq Azam Talwai Bursary, Yuva-Ratna award and has participated in Design workshop by MIT, Media lab. His current research interest includes gerontology, way-finding design, visual communication design and contemporary art and design, etc. He has conducted one NPTEL course, titled "Visual Communication Design for Digital Media".

COURSE PLAN :

Week 01 : Preamble of Contemporary Architecture Architecture during Post Industrial Revolution Characteristics of Modern Architecture.

Week 02 : Phases of Modern Architecture.

Week 03 : Phases of Modern Architecture Characteristics of Post-Modern Architecture Phases of Post-Modern Architecture.

Week 04 : Phases of Post-Modern Architecture Works of master architects from contemporary era.

Week 05 : Phases of Modern Architecture - Brutalism Phases of Modern Architecture - Metabolism Phases of Modern Architecture - Late Modern Architecture Modernism in Visual Design Modernism in Industrial Design.

Week 06 : Genesis of Post - Modern Design Language Characteristics of Post-Modern Architecture and Design Phases of Post - Modern Architecture - Historicism Phases of Post- Modern Architecture - High-tech architecture Phases of Post - Modern Architecture - Neo-modern.

Week 07 : Phases of Post- Modern Architecture - Critical regionalism Phases of Post- Modern Architecture - Critical regionalism Phases of Post - Modern Architecture - Deconstructivism Phases of Post- Modern Architecture - Deconstructivism Postmodernism in Visual Design.

Week 08 : Post-modernism in Industrial Design Works of master architects - Modern era Works of master architects - Modern era Works of master architects –Post- Modern era Works of master architects – Post-Modern era.

PROF. EDAMANA PRASAD
Department of Multidisciplinary
IIT Madras

PROF. PRATHAP HARIDOSS
Department of Multidisciplinary
IIT Madras

PRE-REQUISITES : Students who have completed undergraduate studies (in Engineering or Science) will be in a better position to benefit from this course

INTENDED AUDIENCE : Students of ME/MTech/MS/MSc/PhD can benefit.

COURSE OUTLINE :
Large numbers of students are actively considering and taking up research and associated higher studies. This course aims to introduce students to the important aspects of research. The intent of the course is to make students aware of the details associated with formal research and to help students overcome common misconceptions that may be present in their minds. By going through this course, students are likely to be able to take up research activities in a more systematic and formal manner right from the beginning.

Prof. Prathap Haridoss is a Professor in the Department of Metallurgical and Materials Engineering at IIT Madras. He works in the areas of Fuel Cell and Carbon nanomaterials. He has a B.Tech in Metallurgical Engineering from IIT Madras, and a PhD in Materials Science and Engineering from the University of Wisconsin-Madison, USA. Before he joined as a faculty at IIT Madras, he served as a Senior Scientist at Plug Power, a Fuel Cell company in New York. He has 3 US patents, several International Journal publications, and has published a book titled "Physics of Materials, Essential Concepts of Solid State Physics"

COURSE PLAN :

Week 1 : A group discussion on what is research; Overview of research;

Week 2 : Literature survey , Experimental skills;

Week 3 : Data analysis, Modelling skills;

Week 4 : Technical writing; Technical Presentations; Creativity in Research

Week 5 : Creativity in Research; Group discussion on Ethics in Research

Week 6 : Design of Experiments

Week 7 : Intellectual Property

SHIVAJI UNIVERSITY AUDIT COURSE BROCHURE , SYLLABUS

ANNEXURE A : AUDIT COURSES

The student can opt for one audit course in a semester. A student can opt for a particular course from the list below only once and cannot repeat the same course. The courses may be offered based upon the availability of resources in a college. The method of conduct of course could be based on lectures, site visits, small projects, online sources etc. and can be devised by individual colleges. The course outline given is only suggestive and colleges can expand or modify it for enrichment of the course.

Sr. No.	Code	Title	Brief Course Outline
FIRST YEAR B.ARCH. [ANY ONE COURSE TO BE OFFERED PER SEMESTER FROM THE FOLLOWING]			
1	A	Crafts	Introduction to crafts across the world through history. Types of Indian crafts. Study of any one craft of India.
2	B	Creative Writing	Writing as an art. Fictional and non fictional writing. Poetry, short stories, playwriting. Famous Indian writers, poets and play wrights and their works
3	C	Performing Arts	Introduction to performing arts across the world through history. Types of Indian performing arts. Introduction to Natya-Shastra. Classical, folk, traditional performing arts. Dance, Music, Drama, Cinema
SECOND YEAR B.ARCH. [ANY ONE COURSE TO BE OFFERED PER SEMESTER FROM THE FOLLOWING]			
4	D	Foreign Language	Basic introduction to German or Japanese language or a language which a college may choose to offer – syllables, pronunciations, words, simple sentences, grammar.
5	E	Cyber security	Introduction to cyber crime. Types of cyber crimes. Do and don'ts while using computers, smart phones, internet. Security measures to protect from crime. Crime detection mechanism and legislation.
6	F	Yoga	Introduction to Yoga. Benefits of Yoga. Types of yogasanas.
THIRD YEAR B.ARCH. [ANY ONE COURSE TO BE OFFERED PER SEMESTER FROM THE FOLLOWING]			
7	G	Basics of Accounting and Book keeping	Introduction to accounting and various terminologies. Maintaining books of account. Debit and credit.
8	H	Electrical and Book keeping	Basic electrical gadgets in home and offices. Introduction to problems related to electricity supply in home environments. Precautions while handling electrical gadgets and wiring. Mechanism of protection from electrical hazards.
9	I	Culinary Art and Practices	Introduction to the basic need of food. Geographical and cultural factors affecting food. Various cuisines and culinary arts across the world. Social, health, dietary, aspects of cuisines. Food cultures in modern times. Places of food.
FOURTH YEAR B.ARCH. SEM VII AND FIFTH YEAR B. ARCH. SEM IX [ANY ONE COURSE TO BE OFFERED PER SEMESTER FROM THE FOLLOWING]			
10	J	Civics	Constitution of India, Indian democracy, Citizenship and rights and responsibilities of citizens. Legislative framework.
11	K	Right to Information	Right to Information Act in India. Its need, scope and significance. Use of right to information. Responsibilities of using RTI. Limitations of using RTI. Case studies and legal precedents of using RTI.
12	L	Sign Language	Introduction to need and significance of inclusive social environment. Communication with the persons who have hearing and speech disabilities. Learning sign language.

Sir/Madam,

With reference to subject mentioned above, I am directed to inform you that the university authorities has accepted and granted approval to the Bachelor of Architecture (B. Arch.) CBCS Guidelines and Regulations under Faculty of Science & Technology.

The Guidelines and Regulations will be implemented from academic year 2019-20 onwards. A soft copy of containing Guidelines and Regulations is enclosed herewith and as well as it is also made available on website www.unishivaji.ac.in (Online syllabus)

You are therefore, requested to bring this to the notice of all students and teachers concerned.

Thanking you,

Yours faithfully,

(To be implemented from Academic Year 2019-20)

Introduction:-

This syllabus is prepared with a view to establish a good overall base for Architecture as a Profession. The Students are also introduced to other technologies with which he/she will come in contact during his future career. He/she specially learns Structural Design which is inseparable from Architecture, in such a way that he/she can design smaller build spaces on his /her own and can have intelligent teamwork with the structural engineer, so that there is joint evolution of the final product. He/she is also given basic knowledge in subject like Interior Design, Landscape Architecture, Urban and Rural planning and valuation, Sustainable Architecture. This will enable him/she to develop specialization in any of these subjects. The syllabus is based on guidelines as prescribed by the Council of Architecture time to time.

An overall review of the syllabus should be taken every five to ten years, so as to have scope for revision and updating of syllabus in light of experience and to be in tune with the changing values and technology.

The Institution should specially arrange visits to works under construction at different stages and to be completed building, during which, the students should be trained to observe construction operations with open eyes and have a dialogues with the occupants of the buildings about total experience to design quality in the completed buildings.

The Institution may undertake a very few selected commissions for designing of architectural buildings and architectural research and involve the senior students and the teaching staff during the design process. Regular supervision and preparation of sample bills as part of study can be done.

The student, with aid of the teaching staff, is expected to study relevant ISI standard, NBC concurrently with the subject.

It must be remembered that this complete course forms a base only and that architecture with all its branches and specialized subjects is a continuing education throughout the Architect's career.

The institution may take more lectures, if they feel so, in the interest of the students with local level issues. The Institutions may change the number of lecture from one subject to the other at its

discretion, within the limits laid down by the Council of Architecture, lecture and studio periods may also be interchanges.

Several books on relevant subjects have been recommended for reading. It should be noted that the list is not complete in itself; not that all the books are to be studies. The students can browse through these and other books and study relevant portions in details. Books are also available dealing in details on each type of building. The Institution is recommended to keep such books in its library which the student can refer while solving problems in Architectural Design for particular type of buildings.

PROGRAM EDUCATIONAL OBJECTIVES [PEO]-

1.**Theoretical Base**–To establish strong theoretical base and understanding of Architecture and work of an architect.

2.**Knowledge and Skills**-To inculcate design sensitivity and ability, as well as knowledge in the domains of humanities, technology &art and impart skills so as to equip the graduate student to undertake work of an architect.

3.**Values** - Sensitize the students to the universal values of equity, environmental care, accessibility, and respect for heritage and equip them to address these through design.

4.**Research** -Train the students to methodically research a issue or a situation to find a creative solution to meet the contextual challenges in the realm of changing technologies, socio economic and cultural changes.

5.**Practice and Ethics**- To enable the students to practice as architects and imbibe them with the knowledge of the professional practice and ethics.

6.**Changes and Diversification**- To expose the students to the changes in architectural practice, diversifications and evolving role of an architect.

PROGRAM OUTCOMES [PO]

1.**Knowledge** -Understanding about role of various knowledge domains such as humanities, technology, and environment in design of built environment.

2.**Principles & Theory**- Knowledge of principles of architecture & theoretical knowledge and its application in design.

3.**Creativity** - Creative and design thinking ability.
